This week's Carnival of [Personal Finance](#), hosted by [Mighty Bargain Hunter](#), has some gems for those trying to save money. Here are the editor's top picks:

- Bargaineering has six great ways to [kill your credit score](#).
- Eventual Millionaire explains how she [paid off \\$70,000](#) in debt and quit her job.
- My Dollar Plan lists ten ways to [rejuvenate your finances](#).
- FIRE Finance exposes the [sad reality of looted 401\(k\)s](#).

And here's one of my top picks: [Budgets Are \\$exy](#) describes her theory on how you can become a millionaire by saving \$5 a day. I don't know if it's worth giving up a latte for, but she makes a convincing argument.
